WEB125 HTML & CSS *Spring Semester 2018* *version 3*	PROJECT PLAN FOR [HABESHA ORGANIC FOOD SHOP] BY [BELAIHUN D. FELEKE]
	Required Hardware: N/A
	Required Software: NotePad++ and Browsers

Objectives:
- To promote and advocate my shop
- To provide relevant information to customers about my organic products
- To inform customers about business hours
- To inform customers about contact information and physical address of my shop
- To get feedback and review from customers
- To advocate available organic products through pictorial and graphic figures

Target audience
- All members of the society live in and around Harrisburg
- Customers with in the state and out of the state
- Visitors, job seekers and other interested parties

Site type:
- A responsive Web site which automatically adapts to the screen size of the viewer's device
- A ten-page or more hierarchical Web site, hand-coded in *NotePad++* using the latest HTML5 and CSS3 tools
- Links to corresponding social media pages
- Links to helpful external Web sites
- Contact form so no internal email addresses are revealed to visitor
- No ecommerce requirements

Budget:
- Not applicable for student project
